My Name is Israel Akomolafe, I am currently a student at the Clfpost-16, and I am looking for a part-time job that I can balance with my studies. I currently study maths, physics, and chemistry and as a science student, I understand what it means to be smart and innovative. I am a fast learner and tech-savvy, with training in some basic markup languages e.g., HTML and CSS, and still broadening my knowledge. I know how to use various editing applications like excel, word, and adobe reader.

As a person, I am straightforward and open-minded, and that is because I understand and respect the fact that people have different perspectives, this helps me to appreciate people and understand them better making me an approachable and kind person. I also like to learn, I take any opportunity I have to grow, because that is one of my values, not to be perfect, but to keep growing.

Education

A-levels
2021-2022

Maths, Physics and Chemistry - John Cabot Academy's Sixth Form

Career Overview

**Front-end Web
Developer**
2019-present

Freelancer

- My Name is Israel Akomolafe, I am currently a student at the Clfpost-16, and I am looking for a part-time job that I
- can balance with my studies. I currently study maths, physics, and chemistry and as a science student, I understand
- what it means to be smart and innovative. I am a fast learner and tech-savvy, with training in some basic markup
- languages e.g., HTML and CSS, and still broadening my knowledge.

I know how to use various editing applications

- like excel, word, and adobe reader.
- As a person, I am straightforward and open-minded, and that is because I understand and respect
- the fact that people have different perspectives, this helps me to appreciate people and understand them better
- making me an approachable and kind person. I also like to learn, I take any opportunity I have to grow, because that
- is one of my values, not to be perfect, but to keep growing.

Work Experience

S2 Aerospace - Bristol

- Sorting out equipments while taking measurements.
- Improvising with used metals to get specific measurements that we need.
- Building small boxes with wood.

Instrumentalist And Technical Assistant

- I have had worked with an organization voluntarily, where I was a technical advisor and a musical instrumentalist.
- My work was to get there early in the morning or the night before and setup the sound system, check that all the cables, clean and arrange the sound system and the system room, and microphones were working and play the piano.
- So I know the importance of timing, teamwork, and communication.
- My time at that job taught me several things like
- excellent and effective communication, a proper work environment attitude and so many other things.

Skills

Web-development

- Good analytical and planning skills.

- Good Accuracy and attention to details.
- Excellent problem analysis.
- Excellent judgement according to the situation.

My Website

This is a website I built myself from scratch.
